Extanto Technology Overview

Founded in 2009, Extanto creates and reviews content for publishers, companies, agencies and other organizations. We have developed a significant body of knowledge pertaining to cultural sensitivities and other areas of expertise. Our work with the federal government has given us the ability to assist other companies to do business with the government via the General Services Administration multiple awards schedule (GSA MAS).

Textmetrics is an AI-assisted platform that optimizes written content quality across digital channels. Catering to businesses, government agencies and professionals alike, it analyzes and improves text readability, SEO, and engagement. With real-time suggestions, it helps create compelling content for the target audience. Its intuitive interface and language capabilities make it valuable for better writing and visibility in digital spaces.

DecTron USA manufactures durable, ergonomic articulating arm components and systems engineered and built to withstand the rigors of industrial environments.

Culture Partners helps their business clients create an adaptive business culture that aligns with their purpose and drives results. Culture Partners has a tried-and-true, long-term approach to help businesses become more cohesive and achieve extraordinary outcomes. They work within many business sectors, including the public sector. Their proficiency in aligning organizational culture with strategic goals provides distinct advantages to public organizations, boosting efficiency, accountability, and the quality of service delivery.

BMC enables their business clients to create world-class, omni-channel service and help desk experiences for their clients' users, integrating self-service, and in some cases AI, empowering service agents to deliver the best possible human-led support. BMC improves service management with containerized architecture, broad and open API integrations and code reusability. BMC counts 86% of the Forbes Global 50 among their clients with customers and partners around the world.
