### Company Data

DUNS: 10-879-9366

FAS ID: F78ENTMD9A57

CAGE: 8ZUA0

#### NAICS Codes:

- **332999** All Other Misc Fabricated Metal Product Manufacturing
- **337214** Office Furniture (except wood) Manufacturing
- **332510** Hardware Manufacturing
- **334510** Electromedical & Electrotherapeutic Apparatus Manufacturing
- **339112** Surgical and Medical Instrument Manufacturing
- **339113** Surgical Appliance and Supplies Manufacturing
- **339114** Dental Equipment & Supplies Manufacturing
- **541715** Research & Dev. in the Physical, Engineering & Life Sciences
- **339999** All Other Misc. Mfg.
- **334118** Computer Terminal and Other Peripheral Equipment Manufacturing

#### PSC Codes:

- **3460** Machine Tool Accessories
- **3461** Accessories for Secondary Metalworking
- **3590** Misc. Services & Trade Equip.
- **5340** Hardware, Commercial
- **5419** Collective Modular Support System
- **6515** Medical & Surgical Instruments, Equipment & Supplies
- **6520** Dental Instruments, Equipment, & Supplies
- **6530** Hospital Furniture, Equipment, Utensils, & Supplies
- **6640** Laboratory Equip. & Supplies
- **7110** Office Furniture
- **7520** Office Devices & Accessories

#### Capability Key Words:

Articulated Arms, USA, Made in USA, Stainless Steel, Medical, Dental & Hospital Equipment, Modular articulated support systems, Medical and Surgical Equipment

## Overview

### Summary of DecTron Products

DecTron's collection of durable, ergonomic articulating arm components and systems have been engineered and built to withstand the rigors of industrial environments. DecTron products are proudly MADE IN THE USA.

### Capabilities

DecTron manufactures and distributes modular, industry grade articulating arm systems and workstations designed to meet unique requirements, optimize 5S & lean programs and outlast office grade competition. DecTron has designed and constructed components with modularity in mind so components can be configured to meet unique requirements now and rapidly reconfigured as needs change. DecTron products are built using domestically sourced, high strength welded steel and solid aluminum, providing a product that outperforms and outlasts comparable office grade equipment, ensuring a maximum ROI on your investment.

### Key Points

- Built for industry, fills the gap where office grade comes up short
- Heavy duty construction (extended reach and vertical travel)
- Flexible and modular, limitless configurations to meet unique requirements
- Enhances ergonomics, applications at point of use.
- Saves space
- Maintenance free, built to last

### Relevant Project Experience

Pregis is a packaging solutions company based out of Chicago, IL. They have been a customer of DecTron's for many years. In 2022 DecTron embarked on a massive collaboration with Pregis to assist as a supplier in retrofitting all of the Walmart shipping stations in North America, as well as many Amazon North American shipping stations, with some being retrofitted and some going into new facilities. At the conclusion of the project, DecTron produced and sold thousands of arms, worth approximately \$500k, to Pregis for these projects.

McKesson is a global Fortune 100 company that DecTron has been working with for nearly a decade. McKesson uses DecTron arms in their RX Automation Facilities to hold workstations and assist in the packaging and shipping of their online prescription orders. DecTron continues to support McKesson, producing and supplying them with between 300-500 arm systems per year, with \$32,000 in sales for 2023.

Workplace Modular Systems is a manufacturer of workbenches and has used DecTron arms, tool trays and ergonomic workstations as original equipment in their designs since 2007. Over the years DecTron has evolved designs to meet their specific requirements and have provided custom solutions that best fit their needs and their tables. DecTron sells 600-800 customer arm systems, tool trays and ergonomic workstations to Workplace each year. \$74,000 in equipment sales for calendar year 2023.

McMaster-Carr is an industrial tool and equipment reseller and has been a reseller of DecTron equipment for the last 40+ years. Many companies use McMaster-Carr to source DecTron equipment for use in their production and construction projects. In calendar year 2024, DecTron had over \$300,000 in equipment sales through McMaster-Carr.
